

April 6th Update Hoskin is Still Open for Business During Covid-19

To Our Valued Customers,

We wanted to update you on our current status. Hoskin is still open for business, still supporting key essential businesses and organizations across Canada.

Changes to essential business lists in Ontario has not affected our ability to continue operating. Furthermore, we are still open for business in all other provinces.

The health and well-being of our customers, suppliers, employees, and the surrounding community is of the utmost importance to us, so we are taking all necessary precautions to keep everyone safe.

Our ability to continue distributing products and support to our customers has been minimally affected by the Covid-19 situation. Since we qualify as an essential business under all provincial and federal guidelines, our shipping and service departments remain open, with the rest of our organization working from home. Within our facilities, we are following Health Canada's prevention guidelines including social distancing of essential workforce and increased sanitation and cleaning practices. We are taking proactive measures to identify and mitigate any potential supply chain and workforce disruptions in order to meet your needs. If you have any questions, please feel free to reach out to your sales or service contact, myself (slewis@hoskin.ca) or at sales@hoskin.ca.

Because you are essential, we are here to support you.

We appreciate your business and wish you, your family, and your organization health, stability, and safety over the coming months!

Best Regards,

Shaun Lewis

Hoskin Scientific
